OBJECTIVE

Am a motivated, dedicated, and detail-oriented Software Engineering student at Kirinyaga University seeking an attachment opportunity to apply and enhance my skills in software development. Am eager to contribute to innovative projects and learn from experienced professionals.

SKILLS & ABILITIES

- ❖ Am currently on a personal journey to learn all the necessary web programming languages but as of now, I have a strong grip on HTML and CSS.

- ❖ **Problem-solving skills**: I was able to create a simple hospital management system that enables the user to view all the services offered in that hospital, make appointments with the doctors, make online payments, and also view the history and success stories of other patients; while debugging all the error in the code and researching on how to make the system user friendly.

- ❖ **Team Collaboration**: In 2022 before I joined campus I worked at a supermarket as a linesman, making sure nothing was out of stock by collaborating with the management to make orders from various suppliers.

- ❖ **Communication skills**: While working at the supermarket I developed communication skills that are both effective and appropriate while dealing with customers and the market management.

EXPERIENCE

April 28-August 2022 — **Linesman**
- ▪ Tridev supermarket
- ▪ I ensured the line was fully stocked, clean and everything was displayed in an orderly manner.

March-April 2022 — **Salesperson**
- ▪ At a local market
- ▪ Supported my mom in selling clothes and shoes.

ACADEMIC BACKGROUND

^{Sep} 2022--^{April}2026 — **KIRINYAGA UNIVERSITY**
- ▪ Current Year: Second Year
- ▪ Degree in Software Engineering

Jan 2018--2022	**ST.PATRICKS HIGHSCHOOL ITEN**

- KCSE Grade: B 64 Points

2009--2017	**WEBUYE S.A PRIMARY SCHOOL**

- KCPE Grade: 382 marks

EXTRACURRICULAR ACTIVITIES

➢ I am a member of **KARATE CLUB**, I usually go there to challenge myself, push beyond my limits, and also to have fun.

➢ Am also a member of: **LEARN TO CODE,** it's a club where I meet like-minded individuals who are inspired to code and go the extra mile in programming.
